Experienced Video Interviewer and Public Speaker

Career Summary

For 24 years I worked in public education, both in classroom teaching and as a high school principal. Public speaking comes second nature to me. I have helped create video interviews for the Upper Arlington Civic Association and for a candidate for UA City Council. At Thurber House in Columbus I am a docent and give frequent tours. I have talent in crafting an engaging, positive message, and for and delivering that message with succinct and memorable clarity. I wish to represent, on screen and off, quality companies, people, and causes.
