Naomi is forever described as a joy to be around. Veteran casting directors & teachers all independent of another have expressed these very words. Veteran casting directors have gone on to say she has the "it" factor & "lights up a room". She is very mature, retains information quickly & is great at taking direction. She loves people & is a natural born hostess. She greatly enjoys acting & fills her spare time tik toking and recording for her YouTube channel, Family Sized. To know her is to love her.
