What you should know about Boone:

Boone is an energetic, friendly and loving four-year old who was born with Down Syndrome and battled Leukemia when he was two. Boone never let those challenges deter him from offering smiles and laughter to everyone he meets. Boone loves the camera and is always happy to share his joy with others.

As companies strive to be more inclusive in their print and video advertising we believe representation of a child with Down Syndrome (and a cancer survivor!) is a huge step in working toward inclusivity. As the mission of #changethefaceofbeauty makes huge gains in the marketing world, Boone is an incredible child to carry that banner for companies.
