## **About Ruby**

Ruby has been performing since her first dance class at the age of 3 and is very comfortable onstage. She is small for her age but mature, and can therefore portray a child both younger and older than her 10 years. Ruby takes direction very well and strives to do her best in everything she does. In addition to acting, she loves to read, create art, and recently started learning to play piano. She is very interested in voice acting and has a great ear for accents. One of her favorite things to do at home is play pretend with her younger sister. Ruby adores animals and wants to be a zoo veterinarian one day. She also enjoys being outdoors and going swimming, bike riding, hiking, and fishing.
