Profile

When working with you, I will provide a friendly, knowledgeable, and welcoming style that makes me an ideal choice for a wide variety of projects.

On top of being a trained voice over pro, I bring value to my voice by drawing on a diverse array of real world experience: a Ph.D, 3 years university teaching, 6 years of live webcasting content, and over a decade in the military. What does that mean for you? That means I can provide voice over for your projects that feels AUTHENTIC and BELIEVABLE.

My focus is not only on providing quality voiceover for your project, but also on ensuring a hassle-free working relationship, constant communication, and reliability.
