

Jalen Miles

Frisby

Voice Actor.

2021-Present.

Professional Profile

I have been voice acting since 2021, and overtime i've grown in terms of roles. From Audio Dramas to doing two video games, with another one in production. I also do some animation roles, albeit small, but every role counts.

EXPERIENCE

My Experience with Voice Acting started back when i was in theater class, and I would also watch my favorite animated movies and shows, to where I would try to do the impressions of said voices, and that helped me out in the long run

My first role was an additional role on an audio drama called The Dark Land from Before. From then I started out slow, but I would gain a main role on another audio show, called Genesis Avalon. It's honestly been my favorite role since then.

Over time I've gotten roles here and there, and from then I've progressed. To the point I now have a demo reel, and a commercial reel!

SKILLS

Communication

Impressions.

Cry on command.

Creature voices.

Professional Role
Experiences.
